

Naturally You Finds Your Beauty

Naturally You Finds Your Beauty and Keeps It There For You **NATURALLY YOU** is a most unique place, dedicated to you self-confident best looks, and to your convenience in keeping things that way. **NATURALLY YOU** is an Bloomington-based company that offers the application of permanent lip liner, brow color, eyeliner pigmentation and scalp coloration. **NATURALLY YOU** can bring out your best and keep it in the forefront without using any of your daily time and attention. Your time becomes free for all the other important things you have in your life that make you shine. If you have ever been frustrated about the time required to do makeup and to look good every day, there is now a solution — with permanent cosmetic makeup. Who can be helped with this new method? Persons who are busy professionals, have unsteady hands, are elderly, are handicapped, have allergies, have eyes that tear frequently, have arthritis, are not skilled in the application of makeup, or who are active in sports, . Imagine makeup that won't come off during jogging, swimming or exercising! The medical use of cosmetic pigment dates to well before World War II. It is a time tested and well research method, and so assures the practitioner and client of safety and satisfaction from this intra dermal procedure. It is used safely and successfully in eyelid, lip and brow areas, as well as on the scalp to camouflage thinner areas of hair or areas of hair or areas of missing hair. The pigments **NATURALLY YOU** uses in this process have been used safely for years in cosmetic tattooing, on millions of people. They have been used, extensively tested, and approved for use in cosmetics close to the eye area. The pigments are from inert iron oxides, and these same pigments are used in ordinary makeup. All materials and equipment used come with the highest standard of sterilization, and only disposable needles are used. **THERE HAVE BEEN NO REPORTED COMPLICATIONS TO THESE MATERIALS** in cosmetic tattooing. Your new eyebrow shape will be based on your own preferences, in combination with the **NATURALLY YOU** technician's suggestions for a natural line that will not go out of style. The color can be changed somewhat by blending another color over the original, should you change your mind at a later date. However, color usually goes with your skin and eye tones.

SCALP COLORATION MAKES HAIR LOOK THICKER

If you have ever wished your hair was thick and lush, or embarrassed that your shiny scalp shows through, there is now an alternative to hair transplants, wigs, or simply living with the problem. **NATURALLY YOU** now offers scalp coloration, a procedure of cosmetic tattooing which colors the scalp to match the hair color. This creates the appearance of thicker hair. Men are more and more coming to **NATURALLY YOU** for scalp coloration, and for brow coloration, as well. Scalp coloration solves the problem of troublesome root shapes in hair transplants...scalp coloration is the finishing touch that can make a good hair transplant into a great one. And, for women who have the "balding pattern" problem, but who usually never go bald, it can be a very satisfactory permanent solution.

Call us today to make an appointment to find out how simple and carefree Permanent Makeup can make your life! No one will know unless you tell them! Call **NATURALLY YOU** at 952-881-5008.

PERMANENT MAKEUP IS OUR ONLY BUSINESS.
